My First GBR Kit NEW

Selection of Manual Instruments for GBR

Dieses Kit ist eine Zusammenstellung aus 12 bewährten Handinstrumenten aus unserem Portfolio zur Anwendung im Rahmen von Techniken der gesteuerten Knochenregeneration (GRB). Es ist optimal geeignet als Starter-Kit für angehende Operierende, die ihre ersten Schritte in der regenerativen Oralchirurgie machen. Die Instrumente können im Tray sicher transportiert und sterilisiert werden.

The kit consists of 12 maual instruments selected from our portfolio for application in guided bone regeneration techniques (GBR). It is optimally suited for young surgeons who are taking their first steps in regenerative surgery. The instruments can be safely transported and sterilized within the tray.

Art.-No. GBR00
